SPOKANE VALLEY CITY COUNCIL | TUESDAY, JUNE 2, 2026 | MEETING RECAP

This week, the Spokane Valley City Council held a special workshop meeting to discuss the following non-action item.

ACTION ITEMS

None

NON-ACTION ITEMS

#1 – Comprehensive Plan Periodic Update: Transportation, Capital Facilities and Parks Elements

The Growth Management Act (GMA) requires that the City update the Comprehensive Plan and Development Regulations by December 2026. This latest version of the city's Comprehensive Plan is titled Vision 2046. The purpose of the update, which is required every 10 years, is to bring cities up to date with changes to the GMA, recent case law, and changes in land use and population growth. To streamline the update development process, the Council will review portions of the draft elements of the plan over three different Council meetings.

Key features of Vision 2046 include:

- **Managed Growth and Land Use:**
  - The plan supports growth to efficiently use land while preserving neighborhod character.
- **Targeted Infill Development**
  - Encourages growth within urban areas to protect open spaces and optimize existing infrastructure and resources.
- **Diverse Housing Options**
  - Expanding housing types and affordability to meet demographic changes and future resident needs.
- **Integrated Infrastructure and Resilience**
  - Growth aligned with transportation and utilities, incorporating risk mitigation and environmental hazards.

On March 10, the Council received information about the Economic Development, Land Use and Natural Resources elements of the Comprehensive Plan update. On April 14, the Council reviewed the Housing, Utilities and Climate elements of the plan. At this meeting, the group discussed:

- **Transportation**
  - Updated pedestrian, bicycle, and transit networks
  - Current average daily traffic by road class
  - Current and forecasted traffic volumes
  - Current and forecasted roadway levels of service
  - info
- **Capital Facilities & Public Services**
  - New Growth Management Area statutory requirements
  - Updated inventory to clearly identify City-owned facilities and City-provided services
  - Added information for other contracted public capital facilities and services provided (for example, water, fire, electrical, natural gas, etc.)
  - Additional references for the stormwater management plan
  - Fire and Emergency Services levels of service
- **Parks, Recreation and Open Space**
  - Parks System Map
  - City Parks and Recreation Inventory
  - Goal, Policy and Strategy Updates

The entire updated draft Comprehensive Plan will be presented to the Planning Commission and Council later this year, and the request for plan adoption will be presented to the City Council in late 2026. More information on the Spokane Valley Comprehensive Plan is at www.SpokaneValleyWA.gov/Valley2046.

State Fair Park photo

YAKIMA — Fans of high-octane action won't want to miss the 2026 Sprint Boat Races, roaring back to State Fair Park this summer for two weekends of excitement.

The American Sprint Boat Racing Circuit will be back in Yakima June 13-14 and Aug. 15-16, featuring some of the fastest racing teams from across the country, with several teams coming from as far as Australia and New Zealand. Each race promises edge-of-your-seat action as two-person teams hit speeds over 80 mph while making hairpin turns on a dime, all racing against the clock.

"Sprint boat racing is one of the fastest growing action motorsports in the country," said Kathy Kramer, President/CEO at State Fair Park & Event Center. "We are thrilled to bring this exciting entertainment option to the Valley and welcome visitors from across the country to enjoy the races and experience all the Valley has to offer."

New this season, a Family 4-Pack for $99 (plus fees) is available only through April. The pass provides four general admission entries to any one race day. The Family 4-Pack can be purchased at StateFairPark.org or at the ticket office.

HAMLIN OVERCOMES ADVERSITY TO WIN AT NASHVILLE
By Holly Cain; NASCAR Wire Service

LEBANON, Tenn. (May 31, 2026) – Call it victorious whiplash.

Race polesitter Denny Hamlin took the lead at the drop of the green flag – was penalized and re-set to last in the 38-car field for jumping that start – then rallied his way forward again in the ensuing 300 laps to be in front for the checkered flag of Sunday night's NASCAR Cup Series Cracker Barrel 400 at Nashville Superspeedway.

After a back-and-forth among teammates on a final restart with four laps remaining – featuring a three-wide last-lap challenge for the win among three Joe Gibbs Racing Toyotas – Hamlin delivered the manufacturer its first victory at the 1.33-mile Nashville concrete oval, his No. 11 Toyota finishing a slight .115-second ahead of teammates Christopher Bell and Chase Briscoe.

"The 20 [Bell] and 19 [Briscoe] were battling so hard on that first corner it just let me get to the inside of the 20 at the first corner after the restart and from there, side-by-side with the 20," Hamlin, 45, said describing the dramatic final laps that resulted in his 62nd career win.

The race was delayed almost two hours because of weather, but when the action resumed, there was plenty of drama and intrigue.

The sold-out Nashville crowd issued a silent salute on lap eight to the late two-time NASCAR Cup Series champion Kyle Busch, 41, a beloved four-time Nashville winner (twice each in the CRAFTSMAN Trucks and O'Reilly Auto Parts Series), who passed away last week of sepsis.

Ricky Stenhouse Jr finished fourth in the No. 47 Chevrolet, followed by a career-best fifth-place effort by Shane van Gisbergen.

The series moves a few hours north to Michigan Speedway for Sunday's FireKeepers Casino 400. Denny Hamlin is the defending race winner.

"The Outdoor Insider"

I had a very interesting week. I have been keeping track of the opening of the Icicle River spring salmon fishing, plus travelling to Clarkston, Washington to the Thunder Jet production facility. I got to see the Thunder Jet Luxor model that my new boat sponsor, Mark's Marine in Hayden, Idaho, is having them build.

I travelled to Clarkston, Washington last week, to visit the Thunder Jet production facility. I had been invited to see the facility and the boat that my sponsor, Mark's Marine in Hayden, Idaho is having built for me. John Calder, sales manager at Mark's Marine, introduced me to Shawn Chrislock, the operations manager. I did a video as Shawn took me through the different stages of construction of the boats, from the formed hulls that were being welded, to the paint shop, to where the seats were being made, and finally the area where the final rigging was being done. There were several pages on the build sheet for this particular boat; they have specific instructions for each one. He even took the time to ask me where I wanted the downriggers and back rod holders mounted. He knows anglers have different preferences and I really appreciated the opportunity to show him where I wanted them. This is a busy shop. As many as 300 Thunder Jet boats are completed here every year. The attention to detail is what makes these boats the exceptional quality to last for a fishing lifetime. What a great experience. Thanks John and Shawn. From here the boat will go to the Mark's Marine dealership for the installation of the electronics, bow mount motor and other accessories.

I was going to pass by the park and overlook of Palouse Falls on my way home from Clarkston. This would be the third time in about a week that I had driven by here, and this time I pulled off and viewed the falls. It is spectacular. It is certainly "out of the way" and I am surprised by how many people I mention it to that have heard of the falls but have never visited the site. The falls are at the head of a gorge on the Palouse River. I had the chance to fish on the Palouse River recently and was awestruck by the scenic vistas, wildlife and the variety of fish we caught on the river. Chalk this one up to "stop and smell the roses".

Icicle River opening scheduled for May 31 was postponed. Effective date: Immediately, until further notice. Species affected: Chinook salmon. Locations: Icicle River (Chelan County): Reason for action: A Leavenworth National Fish Hatchery infrastructure failure has led to an inoperable fish ladder that is preventing broodstock collection at this time. Crews are working to correct the issue. Fishery managers will reassess the situation for a fishery opening beginning Monday, June 1. Fishery managers encourage anglers to sign up for Fishing Rule Change email notifications and to check for emergency rules on the WDFW website before fishing.

I just posted the latest Mission in the Rufus Woods Roundup fishing contest, sponsored by the Colville Tribe, on my Facebook page. This one is called the Species Sprint, and, in this case, it's a race to be the first angler to enter a walleye and trout in the contest. All you need to do to qualify for the prize of a $50 gift certificate is to download the free MyCatch app to your phone. This is just one of the bi-weekly Missions in the series of challenges being rolled out during the Rufus Woods Roundup and this one ends on June 9th. There are prizes being offered to anglers who catch a range of species throughout the time the Roundup is being conducted. These include trout, bass, walleye and other species that can be caught in Rufus Woods Reservoir. Categories that have been included in the contest have been for the longest fish, photos of a catch and release and videos of catches and releases. There are numerous ways to win, and you can learn all about it by going to the website at www.Anglers-Atlas.com/event/902.

The high winds and floods that occurred this past winter are resulting in some hazardous conditions for boaters on some of our area lakes. Most notable is Lake Chelan. Every spring boaters have to take care to avoid the debris that has come into the lower reaches of the big lake. Two things cause this. One is that when the lake fills the logs and other debris that had been on the shore when the water was drawn down are now being floated off and the current is bringing it into the most-used portions of the lake. This year there is even more debris with the blowout on the Stehekin River and other tributaries on the upper lake. I have had reports from folks that they are dodging much more debris than they expected for this time of year. Lake Chelan is still filling and won't be at full pool until July 1st. So, go slow and keep any eye out. Also, although our area rivers have settled down there are still fluctuations in the current on the Columbia River. I suggest you get the free Currents App from the Chelan PUD that will give flows on the Columbia below certain dams.

The WDFW announced that it will transition away from accepting cash for license product purchases at its offices next month due to a new state law motivated by the national phase-out of the penny. The WDFW opted to eliminate in-person cash transactions for licensing products — such as hunting and fishing licenses and transport tags — purchased from WDFW offices rather than rounding the cost of transactions. The Department plans to stop accepting cash for license product purchases at WDFW offices on June 11, 2026. You can still buy licenses at local dealers, and they have the option to accept cash.

NIA NEEDS A SOFT SPOT TO LAND
She was hit by a train, & had a rear leg amputated. This isn't stopping her at all though, she's agile, can jump on beds & couches, & is doing awesome in her foster home. She is current on vaccinations, dewormed, heart worm tested negative, microchipped & ready to come snuggle with you. We will place her into your home with our foster to adopt program, so we can finish up her medical needs, including spay. Nia's life before is unknown, but she is showing us just how much resilience dogs have. We see so much potential in her. Her ideal home is likely with other medium to large dogs, but probably best to steer clear of homes with small pets, like cats or ferrets. At somewhere close to 9 months of age this 31lb sweetheart will likely be an ideal medium sized dog, her adoption fee is $200. If you are interested in Nia, please go complete an application at www.TheFurryFarmRescue.org

OPERATION DOG TAG

OperationDogTag.org

I am a Veteran & even with all the experiences I have had, both good and bad, I am proud to have served in the Air Force. I am now blessed to have my service dog, Skye, to help me. I have a TBI (traumatic brain injury) and PTSD (post traumatic stress disorder). I have a wonderful and loving family, however, I do have a wide range of difficulties that impact my daily life. When my head is acting up, it causes balance issues, confusion, fogginess, and loneliness. Additionally, I have difficulty completing daily tasks, communicating and will sometimes get lost walking. I am a believer and know God does love me, yet I am still feeling all this. There's nothing wrong with my faith, it's just my head.

Skye has been in my life for 4 years now, and with the help of Operation Dog Tag and Joe Scheffer, Skye and I have become an incredible team. Skye helps me to feel calm, secure and protected. Skye alerts me when I am having a nightmare, helps me find direction when I am lost, assesses when my heart rate is elevated and comforts me in moments of distress. She always has my back and alerts me to my surroundings. She helps stabilize me when my head goes out and I lose my balance. Skye and I are very much in sync, my husband calls her my shadow.

Skye has been such a blessing in my life. She has allowed me to gain confidence, get my life back, travel, perform daily tasks and socialize with others. We will always continue to learn together and there is still a road ahead. I am thankful for Skye and our friendship each day. Any Veteran who is reading this and struggling, I have been there. Please call Operation Dog Tag, 509-276-4364.

I have my dog with me at all times, and I will never feel alone again.

Cheri Christensen

REAL ESTATE *Trends & Advice*

HOME INSPECTIONS

When a buyer is purchasing a home, there are potentially some upfront costs as the buyer performs due diligence in investigating the home and property. A home inspection is one of the most common. Some buyers may be hesitant to pay for a home inspection because of the $400 to $500 cost. A home inspection contingency is designed to give the buyer a set number of days to take a closer look at the home, inside and out. If they don't like what they see, they can terminate the transaction and walk away unscathed, except for the cost of the inspection. Some buyers would rather take the risk of discovering defects after closing than spend the money on an inspection.

A home inspection gives the buyer more detailed information about the overall condition of the property than could ever be obtained during a pre-offer walkthrough, or from the seller's written disclosures. A qualified home inspector takes an in-depth, unbiased look at the potential home in order to evaluate the condition of the structure and systems, as well as identify items that need to be repaired or replaced. They also estimate the remaining useful life of the major systems, equipment, structure, and finishes. Often, when a home inspector discovers a significant issue with a major system in the home, they will recommend having another professional inspect it further, such as a roofer, plumber, or electrician. There may be additional costs associated with having these professionals perform further inspections. They will most likely be able to provide an estimate of the repair costs, and this information can be useful in negotiating with the seller or deciding whether to continue with the purchase.

While most inspectors focus on structural and system-related issues, many are also licensed to test for radon, evaluate the flow rate and water quality of a well, and inspect for pests such as termites. It is the buyer's responsibility to be informed, since that is the best protection available when purchasing real estate. Buyers have the right to carefully examine a potential new home to ensure that what they are purchasing is satisfactory.

Appraisals are different from home inspections. Appraisals are conducted for lenders to calculate the approximate value of the collateral, while home inspections are intended for buyers to evaluate the actual condition and usability of the property. Buyers sometimes mistakenly assume that the appraiser performs the same task as a home inspector, when in reality, they serve very different roles.

Guess Who?
I am an actress born in California on June 4, 1975. Before acting, I had considered being a funeral director and dropped out of acting classes. It's a good thing I stuck with it, as I won an Academy Award for a 1999 film and have since had a prolific career. I have three biological kids and three adopted children.
